

Computer Vision Challenge

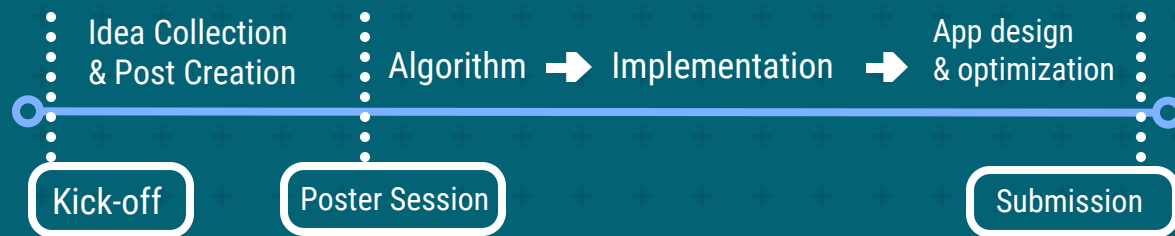

1. Our Group

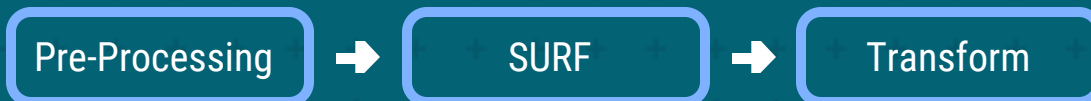

Pre-Processing: Shun Hu SURF: Kaichen Ni Transform: Peng Xie

GUI: Yuqicheng Zhu Interface: Wantao Li

2. Workflow

3. Algorithm

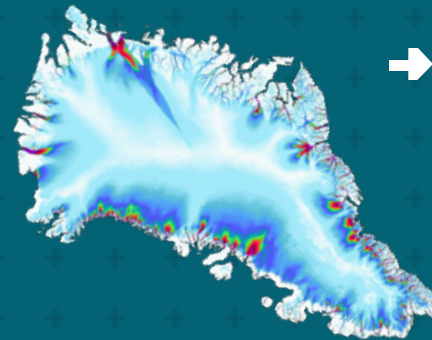

5. Open Questions

- Unmodifiability of Toolbox
- Adjustment of Hyperparameter

6. Challenges

- Cloud Covering
- Unstability of features

4. Functionality

➔ Difference-Highlights

- Use different color to recognize different ranges of the difference

Difference-Curtain

- Push the button and compare two images in one picture

➔ Geographic Information

- Select dataset corresponding to the region
